Choose a coating for your book.

Matte Lamination and Soft Touch are coatings that will protect your book's cover. We recommend choosing one of these options when printing.

Matte Lamination = smooth finish

Soft Touch Lamination = velvety finish

Timeline.

Shipping times do not include production time. Production time is typically 2 days for Matte Lamination and 3 days for Soft Touch. Ship date and ETA will be provided during the ordering process.

Add to Cart.

Once specs are set, click on "add to cart" to choose your shipping method and upload your file(s).

Cover Finish.

If "no soft touch" is chosen on the checklist, please select "matte lamination." Without either soft touch or matte lamination the covers are more likely to be scuffed or damaged by handling.

Choose specs based on the diagram below, then continue with these steps:

- » Upload files.
- » Review details (you can adjust shipping here if needed).
- » And finally, submit payment.
- » Once your order is confirmed, sit back and wait for your books to arrive.
- » Production time is typically 2-3 days before ship date.

Don't forget the spine art when ordering your books.

When you upload your book and review the thumbnail pages (after adding to cart), there will be one extra page at the bottom called "Spine". Upload the spine PDF file provided with the cover you chose. If you don't upload the Spine file, the spine on your book will be white, which might not be a seamless transition from front to back cover.
